AirFry For Crispy Results

Crispy food made simple. The Series 60 and 40 ovens with AirFry feature provide a healthier alternative to oil frying for crispy outsides with little or no oil.

AirFry

AirFry means consumers can now make healthier, crispy and delicious meals for the entire family using the hottest trend in cooking, while eliminating the need for an expensive, bulky countertop appliance.

How?

Combinations of heating elements activated with the dedicated AirFry setting and the openings in the special AirFry tray enable the most even airflow, browning your dish from all sides. So you don't need to turn the fries anymore. Significantly more even browning. Significantly more crispy. Reduced cooking time.

Easy!

Easy To Store and Use. The tray can easily be stored in the oven or with your spare oven trays when not in use. It's easier to store and does not take up valuable cupboard space compared to an air fryer. And compared to a deep fat fryer it is much safer.

Healthy!

Because air-fried foods are lower in fat than deep-fried products, using AirFry may be an easy way to cut calories and help dieting and weight loss.

PEOPLE LOVE THE HEALTH BENEFIT OF AIR FRYERS, BUT THEY AREN'T PERFECT:

1. BULKY
2. EXTRA PURCHASE
3. SMALLER CAPACITY
4. A HASSLE TO CLEAN

MORE SPACE FOR WHAT MATTERS TO YOU!

The AirFry Tray comes with the oven & doesn't take additional space. No need for any extra tabletop appliances. Take back your countertop space!

ZANUSSI AirFry

It's not just about oven chips! It's perfect for fish fingers, scampi, onion rings or anything breaded. Try spring rolls, samosas, bruschetta, sweet potato fries, courgette fries, roast vegetables or for extra crunchy roast potatoes – they all benefit from using the AirFry function!

FRENCH FRIES: HEALTHY & WITHOUT OIL

Cook guilt-free & healthy, without adding oil.

EASY TO DO IT RIGHT!

The special AirFry function is indicated with a dedicated symbol right on the knob. So you can always easily find the right function for perfect French Fries.

MOST EVEN COOKING

Maximized airflow promotes even cooking from all sides, even below. French fries, evenly golden all over.

COOK MORE IN ONE GO!

Significantly higher capacity than table top air fryers. Get the best fries to feed your whole family!

NO MORE TURNING

Stirring and turning the food is simply over, since the innovative perforated tray evenly circulates air to all food sides.

OPENINGS IN THE AIRFRY TRAY ENABLE THE MOST EVEN AIRFLOW, BROWNING YOUR DISH FROM ALL SIDES. SO YOU DON'T NEED TO TURN THE FRIES ANYMORE!
