## AirDry Built-in Dishwasher

AIRDRY

**NATURAL  
DRYING.  
EASY**

### AirDry

AirDry technology finishes each cycle with a breath of fresh air, performing three times better than the closed-door systems.

The door opens automatically by 10cm during the drying phase without having to lift a finger, and the air leaves the plates and cutlery completely dry.

### TimeSet Controls

TimeSet takes the guesswork out of selecting a washing cycle. All you need to do is tap and go. Introducing a completely new way of washing dishes. Choose the cycle time and options with just a touch. That is it – let the machine handle the rest.

### Orbit Clean

Your dishes will come out spotless.

Thanks to the double-rotating arm which continuously changes the angle of the spray, even bulky items are thoroughly cleaned.

### Sliding Hinge

Sliding Hinge makes installing your new dishwasher a breeze. The system is so adaptable it can fit all niche machine heights and removes the need to cut the plinth or for installation above a small cupboard. Total dishwasher integration with genuine ease.
